PROGRAM NOTES

The theater is always an expression of what it means to be alive right now, to be present at this particular moment. No matter which century created it, a play in performance is ultimately concerned with the personal and political issues of the current environment. A play is a high-density magnifying lens through which we can see our own times, our lives, our problems and our assumptions. *Macbeth* signifies what *Macbeth* means now.

Shakespeare's bullet of a play embodies the substantial paradoxes that we seem to be living with on a daily basis. As an audience, via the focusing device of Shakespeare's intelligence and eloquence, we are allowed access to simultaneous sympathy, dismay and *schadenfreude* during the journey of the play. These emotions are triggered not only by the seemingly unstoppable trajectory of *Macbeth* and his wife, but also by the actual state of impermanence that the play implies is the human condition. *Macbeth* is a ritual full of moments, thoughts, gestures, actions and images that operate not as a slice of real life, but as a way of calling up and exorcising such slippery dangerous states.

The theater is ultimately also about community. In the heat of the shared theatrical experience, an audience becomes its own society. You are here with a roomful of other people. Can you handle that? We are a community of people dealing with one another and challenging each other. The theater is about social systems and how individuals in communities function in concert. Can the planet be shared or does it just belong to me?

Anne Bogart & Darron L. West

DRAMATURGICAL NOTE

The historical *Macbeth* was a Scottish noble who deposed the unpopular king Duncan, who

had also seized the throne by violent means. *Macbeth* ruled well for several years before his ruthlessness led to his own overthrow by the Scottish thanes. Shakespeare's *Macbeth* is based on several sources including Holinshed's historical *Chronicles*. From this text Shakespeare compressed two major and very different characters and stories: *Macbeth* and Duffe, another king whose history included elements of witchcraft and sorcery. The medieval Scottish thanes of the historical sources were ambitious and violently aggressive descendants of Norsemen much given to superstition and intrigue. *Macbeth* is a play about ambition, power, evil and its consequences and was most probably influenced by the Guy Fawkes Gunpowder Plot to kill King James I of England and overthrow the "natural order" of God and anointed kings. To this mix of history, myth, and the supernatural, Shakespeare added a timeless plot, complex characters, drama, suspense, humor, ritual, and most specially the beauty and power of his poetry.
